

CERTIFICATE OF APPRECIATION

This is to certify that

Cathy Costello

co-presented the webinar

Digital content in the 21st century library catalogue

on Tuesday 21 August, 2018.

OUTCOMES

This one-hour webinar for school library staff provided participants with information about the benefits of cataloguing digital content for use in school libraries. During the webinar, SCIS demonstrated the most effective way to download digital content records in SCIS Data. Webinar co-host, teacher librarian Cathy Costello, shared how she uses and promotes these in the school library setting. The webinar was designed to allow participants to gain an understanding of:

- Why developing digital collections is essential for the 21st century library
- How SCIS can be used to select educational and age-appropriate digital content

- Search strategies to find and share relevant, current digital resources in the SCIS catalogue
- Downloading bulk records for recently catalogued digital content
- Promoting digital content to teachers and students
- Making SCIS cataloguing requests via the online cataloguing request form.

Australian Professional Standards for Teachers (AITSL)

- Teachers (and school library staff) engage in professional learning
- Teachers (and school library staff) engage professionally with colleagues, parents/carers and the community
